

RESIDENTIAL PROJECTS

Be inspired by projects from all over the world and explore how others have used our floorings to create spaces to thrive in.

BOLON

One of
a kind

STOCKHOLM, SWEDEN – 1949

A young man called Nils-Erik Eklund had the foresight and business acumen to see a great opportunity in the piles of textile waste being produced at a neighbouring factory. From this waste, rag rugs were produced – and three generations and countless exciting twists and turns later, Bolon is a flooring solution that meets the exacting demands of retail businesses the world over.

ULRICEHAMN, SWEDEN – 2020

Bolon is an internationally acclaimed manufacturer of superior quality woven vinyl flooring. We draw our influences from the world of fashion, designing and producing unique woven floors for creative and inspiring environments. Our clients include international brands and we collaborate with world-famous designers and architects. Whilst this gives us immense satisfaction, we are equally proud to offer a

product that represents a pragmatic, functional and environmentally considerate choice for commercial premises of every type and size.

So welcome to our world – a world where innovation, borderless creativity and focused practicality combine to offer you flooring that is truly one of a kind.

ARCHITECTURAL SOPHISTICATION WITH PRACTICAL BENEFITS

Using Bolon flooring in residential interiors is an excellent alternative to carpets. The flooring has a tactile woven expression that adds softness and an exclusive character to any room. It is also durable, safe and easy to care for. In fact, Bolon flooring is approved by The Norwegian Asthma and Allergy Association (NAAF) for its ease of cleaning, impervious benefits and clean air qualities. With Bolon, you can enjoy a designer touch in your residential project without compromising on everyday practical benefits.

DURABLE - DESIGNED TO LAST

Smart, smarter, Bolon. Choosing Bolon flooring is a great investment as our floors have a long product lifetime with warranties up to 15 years. Our competitive durability properties, ease of maintenance and successful track record with residential projects, ensures a safe and sound investment.

The benefits of Bolon correspond with the long-term benefits for your home. Unlike textile, carpet or hard alternatives, our flooring offers superior appearance retention without flattening or colours fading also making it a more sustainable choice.

¹ Competitive durability properties, superior quality, and easy cleaning and maintenance allow for a high return of your initial investment.

² Unlike textile, carpet or hardwood, our flooring retains its appearance without flattening.

³ Our acoustic flooring improves the decibel value up to 22 dB.

⁴ It is possible to clean our flooring with disinfectant, but care should be taken to rinse away all chemicals afterwards to prevent any damage to the floor.

⁵ Cleaning can be accomplished with a vacuum cleaner, water, or a minimal dose of cleaning agent.

Approximately 3mm profile makes Bolon suitable where head height is limited

Bolon flooring is pet- and child friendly

Suitable for use with underfloor heating

Designability

DESIGN FLEXIBILITY

Residential premises demand tough yet flexible and sophisticated flooring solutions. With Bolon, you can create designs that are both unique, functional and long-lasting.

Creating an interior with Bolon flooring as a foundation gives you the freedom to play with shapes, colours, patterns and directions. Choose from existing collections or customise your own design with the standardised special tool. The flooring is supplied in rolls, 50x50 cm tiles, planks or as Bolon Studio™-tiles. Our collections and design tools are divided into:

- Original collections – all our collections are designed to last and bring beauty to any interior. Pick your favourite.
- Standard Specials– create a unique and personalised flooring design with our standardised special tool.
- Collaborative collections – we team up with some of the world's most renowned designers to keep pushing the boundaries of flooring design.
- Customised flooring – we're more than happy to help you create your project-specific flooring.

A UNIQUE VISUAL EXPERIENCE

- **LIVING DESIGN** – the reflective qualities of our flooring and its ability to play with light and create 3D effects and structure add a unique design dynamic.
- **FLEXIBILITY** – Bolon flooring can be designed in many colours, shapes and patterns. The only boundaries are your imagination.
- **WOVEN STRUCTURE** – the unique vinyl weave provides a tactile woven touch with great durability qualities.

BOLON STUDIO™ CREATIVITY ON YOUR TERMS

Make your residential interior stand out with a unique flooring design. Our Bolon Studio™ concept makes it easier than ever to achieve this. With Bolon Studio™, you can explore different sizes and shapes to let creativity truly express itself. Consider colour choice, room characteristics and how the light falls – and discover how Bolon flooring adds unique ambience and character to your interior.

Cleanability

EASY TO CLEAN EASY TO USE

A residential interior must be easy to clean and maintain. With Bolon flooring, most cleaning needs can be accomplished with a vacuum cleaner, scrubbing brush, water and a minimal dose of stain remover. A badly maintained floor, or a floor that has become extremely dirty for another reason, can in most cases be restored to an almost new condition. We called this method zeroing.

Correctly performed maintenance prolongs the floor's useful life. Factors such as colour, design or where the flooring is installed affect the need for cleaning. Mechanical cleaning can be performed with appropriate roller brush or orbital cleaning machines. For daily cleaning, we recommend vacuuming.

STAIN REMOVAL

STAIN	CLEAN WITH
Chocolate, fat, cheese	Melt with hot water (70 - 100°C). Soak up with a micro-fibre cloth
Juice, coffee, beer, wine	Hot water, if needed use an all-purpose cleaner
Asphalt, oil, shoe cream, chalk, ink	Chemically pure petrol
Blood	Cold water – ammonia if needed
Rust	Light acidic (pH 3-4) cleaner
Water-based glue	Hot water
Solvent-based glue	Chemically pure petrol
Marks from shoes	Rub with dry cloth
Chewing gum	"I-gum" machine if available. Hot water (70 - 100°C), steam or freeze spray
Indentation from furniture	Hot water (70 - 100°C)
Candle wax	Melt with hot water (70 - 100°C). Soak up with a micro-fibre cloth

PRACTICAL ADVANTAGES

> **EASY TO CLEAN** - the vast majority of cleaning tasks can be accomplished with a vacuum cleaner, water, scrubbing brush and a minimal dose of cleaning agent.

> **HYGIENIC** - Our flooring is impervious to any spill or mess which makes them easy to clean and maintain.

> **BETTER INDOOR AIR QUALITY** - Bolon has VOC (Volatile Organic Compound) emissions well below recommended levels.

“Great flooring design is a delicate mix of beauty and function.”

– Marie Eklund
Owner and CEO of Bolon

Durability

A SMARTER INVESTMENT

Bolon flooring has a long product lifetime during which we offer warranties up to 15 years. And with its competitive durability properties, superior quality, and easy cleaning and maintenance routines it makes it the perfect solution for all areas of the house, including gyms, bedrooms, boot rooms, home office etc.

LONG TERM BENEFITS

- > **DURABILITY** – all our collections have ISO 10874 durability, which ensures for a long product life.
- > **WARRANTY** – all our flooring collections comes with 10 – or 15- years warranty.
- > **APPEARANCE RETENTION** – unlike textile, carpet or hardwood, our flooring retains its appearance without flattening.
- > **KNOWLEDGE & EXPERIENCE** – our unique background and product together with our position as a world leader in woven design flooring make Bolon flooring a safe and sound investment.

Acoustic Flooring

DESIGNING WITH ACOUSTIC FLOORING

Sound insulation is an essential feature in a building as it reduces the transmission of sound disturbances to the room below. The thicker insulation layer improves the impact noise reduction up to 22 dB. This flooring enhancement is a perfect choice for spaces such as apartments, communal corridors and playrooms.

SILENCE WITHOUT COMPROMISE

- › **IMPACT NOISE REDUCTION** – reduced sound level to the room below is 21-22 dB.
- › **AIRBORNE SOUND ABSORPTION** – the flooring absorbs 15% of the sound energy.
- › **GREAT PERFORMANCE** – the sound insulation layer doesn't affect the flooring's performative qualities such as fire rating, durability or warranty.
- › **THICKER FLOORING** – the insulation layer makes the flooring thicker (5 mm).

Sustainability

SUSTAINABILITY AS STANDARD

A Bolon flooring is a sustainable choice considering its long product lifetime, outstanding durability properties, Eco-friendly cleaning, and the climate neutral manufacturing in Ulricehamn Sweden. Moreover, the PVC used in the flooring is solely bought from Best Environmental Practice suppliers.

We also recycle our own, and even others, production waste at our integrated recycling plant. And by re-using the material producing new flooring, our end product is resource-efficient with a lower environmental impact.

ENVIRONMENTAL PERFORMANCE OF BOLON FLOORING

> CLIMATE NEUTRAL PRODUCTION

> **RECYCLED WASTE** - All collections contain recycled material from pre-consumer waste.

> **RENEWABLE ENERGY** - We use 100% renewable energy in our factory.

> **BEST PRACTICE PVC** - We only use best practice PVC and source raw material from the greenest polymer factories.

> **PHthalate FREE** - All our products are 100% phthalate and heavy metal free.

> **INTEGRATED RECYCLING** - Our recycling plant is integrated with our factory.

> **CLEAN MAINTENANCE** - Cleaning can in, most cases, be performed with just water.

> **GREEN TRANSPORT** - We primarily work with local suppliers which reduces transport-related environmental impact.

Certificates

PROOF OF PERFORMANCE

Our products and processes have been awarded stringent environmental certifications for buildings including GreenTag, BREEAM and Floorscore, which contribute to a higher LEED rating. These third-party verified certifications are one way of demonstrating and communicating our environmental quality. Our declarations provide transparency and availability for everyone. Because Bolon operates in many different markets, we have many different certificates and declarations.

[Click here](#) to read more about our certificates.

FAQ

TECHNICAL PERFORMANCE

IS THE FLOORING ACOUSTIC?

Our flooring's impact sound absorption varies for different products from 11dB to 17dB. With the acoustic felt option the sound absorption is up to 22dB. Make sure to read the designated product specification.

WHAT IS THE FIRE RATING OF YOUR FLOORING?

Bolon flooring complies with the requirements in the European, standard En 13501-1, fire classification of construction products, and has achieved the rating just below non-combustible material. This classification is called BflS1 and includes both fire and smoke production. Bolon flooring is approved for emergency exit routes in Sweden.

WHAT IS THE FLOORING'S SLIP RESISTANCE ASSESSMENT?

CE certification for the floor includes a slip resistance assessment. The lowest value for materials used in public areas is 0,3. Bolon's collections have a slip resistance value of >0.5

IS BOLON FLOORING ANTI-STATIC?

Bolon flooring does not generate a static charge but it cannot be classified as an electrostatic dissipating floor. Bolon flooring has been tested and fulfill the requirements of the European Directive EN 1815.

INSTALLATION

CAN BOLON FLOORING BE INSTALLED ON CHIPBOARD, PLYWOOD AND CONCRETE, PORCELAIN AND CERAMIC FLOORING?

Yes. It is important with a leveled subfloor for a good result. Make sure that the adhesive used is compatible with vinyl and the subfloor.

CAN I USE BOLON FLOORING ON RAISED FLOORS?

Yes. Especially our tiles work excellent for raised floors. For more information contact your local partner.

HEALTH AND WELLNESS

IS BOLON FLOORING HEALTHY AND SAFE?

Yes. Our floors are free from additives such as phthalates or heavy metals. The PVC used comes from environmentally certified factories that have low emissions and efficient energy use. Moreover, our floors have low emission values of VOC and are featured in various hospitals and healthcare practices around the world. All collections are recommended by The Norwegian Asthma and Allergy Association (NAAF).

SUSTAINABILITY

DO YOU CALCULATE THE FLOORING'S ENVIRONMENTAL IMPACT ACROSS THE WHOLE LIFE-CYCLE?

Yes, we have performed so-called EPD's, life cycle analyses, on all our collections. The analyses made it clear that the biggest climate impact comes from the production of the vinyl raw material. We will reduce this climate impact in the coming years.

WHICH PRODUCTS CONTAIN RECYCLED MATERIAL?

All of our collections contain recycled materials. The proportion of recycled material varies between 10-30% of the total material used.

IS PLASTIC A GOOD MATERIAL FOR FLOORING?

Plastic can be a beneficial material for flooring in particular. This depends on the type of plastic used and how it is handled. The plastic we use is hardwearing with a 10- or 15- year guarantee. Our raw material, PVC, can be recycled up to seven times and it is completely free of additives such as phthalates or heavy metals. Our floors have low emission values and are, therefore, approved for hospital environments. The floors are also easy to clean, usually, plain water is all that's needed to clean them. Based on these facts, a plastic floor from Bolon is many times a good environmental option compared to other flooring.
