REALISE YOUR VISION

Designed for diverse areas, Bolon Studio™ tiles optimise the creative potential of our flooring. Their aesthetic versatility allows architects and interior designers to devise more specific solutions for their projects.

BOLON STUDIO™

Although they are not created solely for this purpose, Bolon Studio™ tiles are perfect for highlighting smaller or separate floor areas by giving them a distinctive, standout look. Bolon Studio™ tiles are supplied in the following forms – Deco, Hexagon, Rectangle, Scale, Triangle (3), Wing, Wave and Link.

Within the range, both strict graphic forms and softer, more organic shapes are featured. Together with innovative use of the selected collections available in the concept, this wide spectrum of forms allows for the creation of a huge diversity of interiors. Furthermore, mixing and matching patterns and experimenting with different laying styles can also lead to unique and visually exciting results.

These products are a ‘production on demand’ item, meaning we never have them in stock as they are created as required for specific projects.

INSTALLATION

1. The material should reach room temperature prior to installation.
2. Make sure the subfloor is leveled before installation. For best result ±2mm/2m and ±1,0mm/0,25m or better is recommended.
4. The box contains tiles with short and long weft. Separation should be done prior to the installation.

Design your own flooring using our Bolon Tiles Design Tool and find more inspiration images and specific installation instructions on bolon.com On page xx - xx we have used the tool to create some patterns to boost your creativity.
The dotted lines show the direction of the weft yarn. The weft, is the thinner yarn, which is drawn through the warp, the thicker yarn. Depending on the direction of the weft, a different effect can be seen.
