

BOLON STUDIO™ TILE SHAPE: PLANK

Bolon Studio™ is a versatile and contemporary flooring concept. By making your own selection from a range of tiles and combining the shape with the majority of our floor collections, the concept creates room for bespoke interiors.

Six shapes; **Triangle, Deco, Plank, Hexagon, Wing and Scale**, and seven collections; **Flow, Create, Artisan, Botanic, Ethnic, Now, and Bkb**, are included in the concept. Your patterns will look completely different depending on the choice of colour, the direction of the yarn, and light reflections.

The tiles in this box are in scale 1:4 - smaller than the true version, yet filled with the same possibilities. Mix and match and try out the future of flooring on top of your own desk.

Material: Produced from roll material

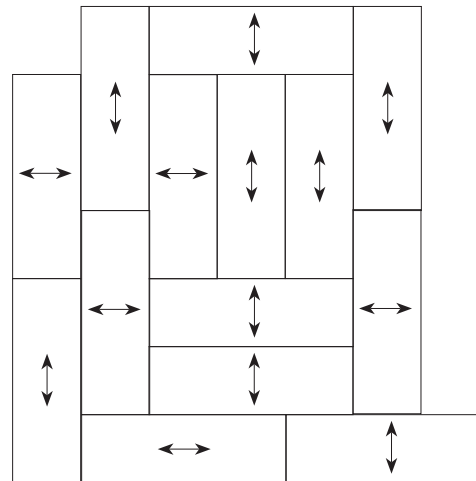

Order: Boxes of 5,4 sqm/each colour
39 pcs Planks (18 + 21 in each direction)

Price: By request

Installation:

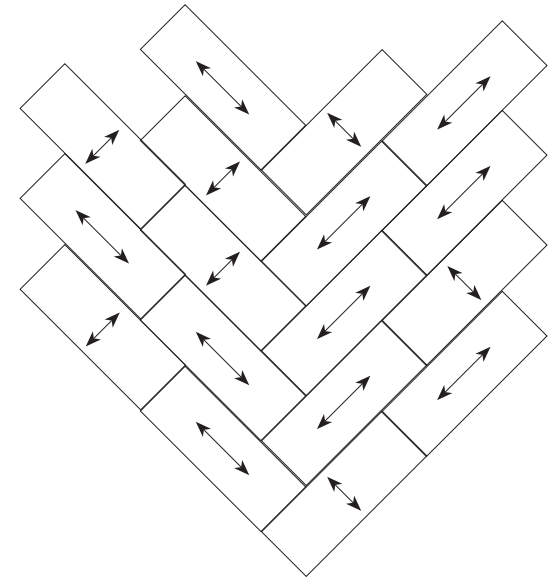

The material should achieve room temperature prior installation.
Make sure the subfloor is leveled before installation.
