

CARE ADVICE

RUG COLLECTION VILLA LA MADONNA, DUET

DAILY CLEANING:

Vacuum cleaning.

Rotate the rug at regular intervals to prevent uneven wear and tear.

SPILLS:

Soak up the liquid with absorbent paper, cloth or towelling. Then scrub gently with a damp cloth. If necessary, use a mild detergent or washing up liquid, but make sure to wring the cloth properly before scrubbing.

DRY STAINS:

Scrub gently with a damp cloth. If necessary, use a mild detergent or washing up liquid, but make sure to wring the cloth properly before scrubbing.

PLACEMENT:

When positioning the rug, keep in mind that it doesn't let through moisture. Flooring that is designed to breath could potentially be damaged if moisture is trapped underneath the rug.

PERIODIC CLEANING IN PUBLIC AREAS:

Use a carpet cleaning machine with HWE (hot water extraction).

Use special low-foaming carpet detergent intended for HWE.

Precondition stains with a cleaning solution and a soft brush/cloth.

Spray the carpet detergent evenly over the rug, then wait 10 minutes (check user instructions on the bottle for precise waiting times).

Use the machine to spray the water, agitate the rug (if the machine has brush rolls), and then extract the water. If the rug is heavily soiled, spray the water and agitate without activating the extraction nozzle. Pass over a few times and then extract the water.

Keep in mind that the surface may be sensitive! Always wash the rug on a water-resistant surface. Water may penetrate the rug's backing and damage flooring.
